7. What improvements would you suggest?

What improvements would you suggest?

Maybe some part that discusses what these philosophical ways of looking at the world also can be solved. I might have thought that it would have included parts discussing maybe philosophy-agenda 2030- and whether it is at all necessary to have ie Agenda 2030 when nobody is committed enough. But overall! Impressed by this course!

Allt är utmärkt som det är nu.

If possible record the lectures.

The exam was mostly focusing on summarising some provided articles. I might have been more interesting to have questions with more room for own thinking.

Inga ändringar

The course in my opinion could be extended. It is far too interesting and in that way there would be more time for the group discussions.

Nothing! It was great!

I would appreciate more materials for every topics to have access to more varied views

Perhaps an assessment scheme that provided feedback before the end of the course? I tend to be a 'good student', but appreciate feedback that I am on the right track (or not) before the course is finished. Now the course is long done, and I am still wondering 'how did I do?'. Did I manage to do A-level work, or am I more like a C? In twelve days I find out, I guess, and use what I learned to organize my study if I take a similar course next summer; but if I didn't do as well as I'd ideally like to it's too late to remedy it now.

Administrativt: i schemat på nätet (schema.su.se) hade det varit praktiskt att kunna se om det är en föreläsning eller ett seminarium som är schemalagt när (som det var nu kunde man egentligen bara se tid och kurskod). Mer av en personlig åsikt: gärna lite utökad ordgräns på tentamen. Blev lite svårt att utveckla sitt resonemang så mycket som man kanske hade velat.

lecture video/audio recordings will be very useful for later revision.

more time for the exam and/or over the weekend will be very helpful for people working full time.
