6. What was the best about the course?

What was the best about the course?

Doable without the literature

Det var en intressant kurs med många nya perspektiv. Jag tyckte att seminarierna gav mest.

The overview it gave us for the area of ethics and the key figures and their theories

The best part was the professor, he made learning about what normally most people would find boring, mundane and to some extent irrelevant - interesting and engaging.

Discussions and seminars

7. What improvements would you suggest?

What improvements would you suggest?

Encourage people to argue their views instead of filling in for them when choking, I think it would promote moral reflection better

One of the four exam-questions was about particularism, but I don't remember the professor mentioning it at all during the course. I also couldn't find anything about it in the course literature. You had to learn it some other way. I think that could be improved.

-Svårt att förstå när det är nya ord och uttryck på engelska. Läraren pratade fort och med svårare engelska än nödvändigt.

Maybe some questions in between lectures to work on or something similar, otherwise the course was great!

Sometimes it was difficult to take notes because the professor spoke fast. I suggest for the professor to talk slower in the future lectures :)
